Vol. 10, Nos. 1–6 January–December, 1969 Pages 1–1581

ANNUAL INDEX OF AUTHORS

Abdullaev, S. K. and Babaev, A. A. *Some estimates for a singular integral with summable density* 1088

Ačil′diev, A. I. *Eigenfunctions of the first boundary value problem for elliptic equations degenerate at certain points* 1258

Adel′son-Vel′skiĭ, G. M.; Veĭsfeĭler, B. Ju.; Leman, A. A. and Faradžev, I. A. *Example of a graph without a transitive automorphism group* 440

Aĭzengendler, P. G. and Vaĭnberg, M. M. *Branching of periodic solutions of differential-difference equations* 601

Akivis, M. A. *Canonical expansions of the equations of a local analytic quasi-group* 1200

Akperova, O. A. and Džavadov, M. G. *On the expansion in eigenfunctions corresponding to a part of the set of eignevalues of a nonselfadjoint second-order differential operator* 1127

Aleksandrov, A. D. *Cones with a transitive group* 1460

Aleksandrov, I. A. and Gutljanskiĭ, V. Ja. *On the coefficient problem in the theory of univalent functions* 1091

Aleksidze, M. A.; Arveladze, N. M.; Lekišvili, N. L. and Pertaja, K. V. *On expansions of functions in approximately orthonormalized systems* 469

Allahverdiev, Dž. È. *Nonselfadjoint operators depending rationally on a spectral parameter* ... 636

Ambarcumjan, R. V. *Intersections of complex curves and random straight lines* 865

Andrunakievič, V. A. and Rjabuhin, Ju. M. *Direct sums of division algebras* 1516

Arhangel′skiĭ, A. V. *Approximation of the theory of dyadic bicompacta* 151

A criterion for n-dimensionality and an approach to the proof of the equality dim = Ind *for metric spaces* 869

On the cardinality of bicompacta satisfying the first axiom of countability 951

Arsen′ev, A. A. *Behavior of the generalized solution of a mixed problem for the wave equation in an almost closed domain* 354

Badoev, A. L. and Sadovskiĭ, B. N. *An example of a densifying operator in the theory of differential equations with a deviating argument of neutral type* 724

Baĭguzov, N. S. *On the rate of convergence of differentiated Lagrange and Hermite interpolation polynomials* 1132

Baĭkov, V. A. *Fatou's theorem for regular quaternion functions* 442

Baĭramov, R. A. *Criteria of fundamentality for permutation groups and for transformation semigroups* 1414

Bakštys, A. *On the distribution of values of multiplicative arithmetic functions* 1001
Bakušinskiĭ, A. B. *On the construction of regularizing algorithms in the presence of random noise* 1376
Bladze, D. O. *Generalized Steenrod homology groups* 680
K-homology groups as generalized Steenrod groups 875
Duality theorem for the homology and cohomology K-groups 1309
Barzdin′, Ja. M. *On computability by probabilistic machines* 1464
Bavrin, I. I. *General integral representations* 571
Integral representations of holomorphic functions and Taylor's formula 810
On a generalization of the integral formulas of Cauchy, Schwarz, and Poisson 873
Beljaev, Ju. K. *On the number of entries of trajectories of a Markov process into a given set of the phase space* 729
Beljaeva, M. A. *Approximate solution of a system of ordinary differential equations having a small parameter with the derivatives* 1556
Berkovič, Ja. G. *Subgroups, normal subgroups and epimorphic images of a p-group of finite order* 878
Berlinskiĭ, A. N. *On the structure of the neighborhood of a singular point of a two-dimensional autonomous system* 882
Berman, D. L. *A study of the Hermite-Fejér interpolation process* 813
Bibikov, Ju. N. *On the existence of invariant tori in the neighborhood of the equilibrium state of a system of differential equations* 261
Bicadze, A. V. and Samarskiĭ, A. A. *On some simple generalizations of linear elliptic boundary problems* 398
Birman, M. Š. *Some applications of a local criterion for the existence of wave operators* 393
Blagoveščenskiĭ, Ju. N. *On the distribution of extreme terms of order statistics* 1169
Bočvar, D. A. *Measures of kernels of reducibility axioms* 473
Bondareva, O. N. *Solution for a class of games with empty core* 318
Borisovič, Ju. G.; Gel′man, B. D.; Muhamadiev, A. and Obuhovskiĭ, V. V. *On the rotation of multivalued vector fields* 956
Borisovič, Ju. G. and Turbabin, A. S. *On the Cauchy problem for linear nonhomogeneous differential equations with retarded argument* 401
Borodin, M. A. *The problem of linear conjugation for a holomorphic vector in a Banach space* 1560
Borok, V. M. *Theorems of Phragmén-Lindelöf type for solutions of certain differential equations in an infinite layer* 1
On a boundary value problem in an infinite layer for linear differential-difference systems 1312
Borovikov, V. A. *On the problem of discontinuity decay for a system of two quasilinear equations* 321
The asymptotic behavior as $t \to \infty$ of certain solutions of a system of two quasilinear equations 358

Borovkov, A. A. *On three types of conditions for convergence to diffusion processes* 960

Brègman, L. M. and Fokin, I. N. *On the structure of optimal strategies in some matrix games* . 1208

Breĭtbart, Ju. Ja. and Kozmidiadi, V. A. *Two subclasses of Turing machines reducible to finite automata* 763

Brodskiĭ, I. B. *On the invariants of the group of triangular matrices of nth order with ones on the main diagonal* 1262

Brodskiĭ, M. S. and Isaev, L. E. *Triangular representations of dissipative operators with an exponential type of resolvent* 1204

Brudovskiĭ, B. S. *Semi-integral and quasi-nuclear mappings* 1095

Budak, B. M. and Moskal, M. Z. *On the classical solution of the Stefan multidimensional problem* 219

Classical solution of the multidimensional multifront Stefan problem 1043

Budak, B. M.; Vignoli, A. and Gaponenko, Ju. L. *On a method of regularizing the extremal problem for a continuous convex functional* 4

Buhštaber, V. M. *Representative spaces for a K-functor with coefficients* 606

Burd, V. Š.; Zabreĭko, P. P.; Kolesov, Ju. S. and Krasnosel′skiĭ, M. A., *The averaging principle and bifurcation of nearly periodic solutions* 1006

Burenkov, V. I. *On composition of absolutely continuous functions and composition of functions of bounded variation* 1379

Burgin, M. S. *Correspondence of categories over semiabelian categories* 1564

Buslenko, N. P. and Kovalenko, I. N. *On the mathematical description of the elements of complex systems* 1009

Byhovskiĭ, È. B. *Some topological problems for finite-dimensional vector fields connected with the theory of discontinuous solutions of systems of quasilinear conservation laws* 683

Čanturija, Z. A. *Bases of the space of continuous functions* 862

Čarušnikov. V. D. *On the problem of optimization of algorithms for approximate integration of functions of several variables* 1355

Čerkasov, I. D. *Equivalence groups of second order linear differential equations* 807

Černavskiĭ, A. V. *Topological imbeddings of manifolds* 1037

Černikov, S. N. *Infinite nonabelian groups with minimal condition for noninvariant abelian subgroups* 172

Čerskiĭ, Ju. I. *On the incomplete factorization method* 1360

Cinman, L. L. *Certain algorithms in a formal arithmetic system* 1452

Čistjakov, A. L. *Defect indices of symmetric differential operators with polynomial coefficients* 593

Čoban, M. M. *Mappings of metric spaces* 258

On exponential topology 597

Multivalued mappings and spaces with a countable net 716

Čudnovskiĭ, D. V. *Nonstandard analysis and homeomorphisms of B-spaces* 436

Čunihin, S. A. *On composition blocks of finite groups* 997
Danilin, Ju. M. *On an approach to minimization problems* 1274
Davidovič, Ju. S.; Korenbljum, B. I. and Hacet, B. I. *A property of logarithmically concave functions* 477
Davydov, Ju. A. *On the strong mixing property for Markov chains with a countable number of states* 825
Dem′janov, V. F. *On a minimax problem* 828
Dem′janovič, Ju. K. *Uniform convergence of variational-grid methods* 336
Denčev, R. *Spectrum of singular integrals on domains with a boundary* 773
Derguzov, V. I. *Existence of periodic motions and of motions of special type for Hamiltonian systems with a small parameter* 651
DeSpiller, D. A. *The oricyclic pocket* 481
Dinic, E. A. and Kronrod, M. A. *An algorithm for the solution of the assignment problem* 1324
D′jakonov, E. G. *The solution of some nonlinear systems of difference equations* 1216
Djubin, G. N. *A set of games on the unit square with unique solution* 51
Dolgačev, I. V. *On the purity of the set of singular points of a morphism of schemes* 1177
Dragalin, A. G. *Transfinite completions of constructive arithmetical calculus* 1417
Dragalin, A. G. and Ljubeckiĭ, V. A. *Construction of an effectively inaccessible cardinal in a natural extension of the Zermelo-Fraenkel system* 1013
Drožžinov, Ju. N. *Stabilization of solutions of the heat-conduction equation* 266
Dubinskiĭ, Ju. A. *Boundary value problems for elliptico-parabolic equations* 107
On a class of differential operator equations of high order 969
Dubovickiĭ, A. Ja. and Miljutin, A. A. *Maximum principle in a class of variations of small absolute value for optimal control problems with mixed constraints of equality and inequality* 1567
Dynin, A. S. *On the theory of pseudodifferential operators on a manifold with a boundary* 575
On the index of families of pseudodifferential operators on manifolds with a boundary 614
Dynkin, E. B. *Game variant of a problem on optimal stopping* 270
Džabrailov, A. D. *Interpolation spaces of differentiable functions defined in an n-dimensional domain* 833
Džafarov, A. *A constructive characterization of a class of square-integrable functions on a sphere* 8
Džafarov, A. S. *Some direct and inverse theorems in the theory of best approximation of functions by algebraic polynomials* 916
Džuraev, A. *On a Beltrami system of equations degenerating on a line* 449
Systems of second-order partial differential equations of composite type with one twofold family of real characteristics 655
Boundary value problems for systems of second-order equations of composite type with one multiple family of real characteristics 692

Džuraev, T. D. *A system of boundary-layer equations for an axisymmetric steady flow of compressible fluid* 838
Efimov, B. *Subspaces of dyadic bicompacta* 453
Solution of some problems on dyadic bicompacta 776
On imbedding of Stone-Čech compactifications of discrete spaces in bicompacta 1391
Egorov, Ju. V. *Apriori estimates for first-order differential operators* 368
On nondegenerate subelliptic pseudodifferential operators 697
Conditions for the solvability of pseudodifferential equations 1020
On subelliptic pseudodifferential operators 1056
El′kin, A. G. *Decomposition of spaces* 521
On the maximal resolvability of products of topological spaces 659
On irresolvable spaces and ultrafilters that are topologically dense in themselves 1424
Elubaev, S. *On an inverse problem for the telegraph equation* 1421
Emeličev, V. A. and Komlik, V. I. *The solution of discrete programming problems by the construction of a sequence of schemes* 1098
Emelin, I. V.; Krasnosel′skiĭ, M. A. and Pokrovskiĭ, A. V. *Inertial games* 1060
Èskin, M. I. *A boundary value problem for an overdetermined system of two second-order equations* 1455
Evgrafov, M. A. and Postnikov, M. M. *On property of the Teichmüller metric* 1017
Faĭnleĭb, A. S. *A limit theorem for the number of classes of purely radical quadratic forms with negative determinant* 206
Fedorčuk, V. V. *Mappings that do not reduce dimension* 314
Strongly closed mappings 804
Filippov, V. V. *A bicompactum with noncoinciding inductive dimensionalities* 208
A bicompactum satisfying the first axiom of countability with noncoinciding ind *and* dim *dimensions* 713
On perfectly normal bicompacta 1503
Flerov, Ju. A. *Multilevel dynamic games* 994
Fomenko, A. T. *Existence and almost everywhere regularity of minimal compacts with given homological properties* 947
Fomenko, V. T. *Rigidity of surfaces with boundary in Riemannian space* 857
Frank, L. S. *On hyperbolic difference operators* 1449
Frolov, V. D. *A contribution to the theory of singular integral equations with measurable coefficients* 1577
Gasymov, M. G. *Distribution of eigenvalues of selfadjoint ordinary differential operators* 646
Gavurin, M. K. and Afonin, V. G. *Numerical integration of certain systems in the theory of nonlinear oscillations* 643
Gehtman, M. M. *On the problem of the spectrum of selfadjoint extensions of a symmetric semibounded operator* 737
Geĭler, V. A. *Functors defined by reflexive K-spaces* 1052

Gelig, A. H. *Stability of pulse systems with frequency modulation* 324
Germogenova, T. A. *Local properties of a solution of the transport equation* 964
Glebov, N. I. *On a generalization of the Kakutani fixed point theorem* 446
Gluško, V. P. *A priori estimates in $\mathfrak{L}_2$ of solutions of general boundary-value problems for degenerate second-order elliptic equations* 817
Gnedenko, B. V. and Gusseĭn Fahim *On a transfer theorem* 769
Gohberg, I. C. and Krupnik, N. Ja. *On the spectrum of singular integral operators in L_p spaces with weight* 406
Systems of singular integral equations in weight spaces L_p 688
Gol′dman, M. A. *A characterization of functionally separable spaces and Tihonov spaces by means of divergent nets* 1270
On a decomposition of a linear operator 1520
Golodec, V. Ja. *On finite groups of automorphisms of hyperfinite factors* 1266
Golosov, Ju. I. and Tempel′man, A. A. *On equivalence of measures corresponding to Gaussian vector-valued functions* 228
Golubjatnikov, A. N. *Lie subgroups of the Lorentz group with a finite group of components* ... 611
Golubjatnikov, A. N. and Lohin, V. V. *Tensor invariants of the subgroups of the Lorentz group* 821
Golubov, È. A. *On finite separability in semigroups* 1321
Gončarskiĭ, A. V. and Jagola, A. G. *Uniform approximation of monotonic solutions of non-correct problems* 155
Gorbačuk, V. I. and Gorbačuk, M. L. *Expansion in eigenfunctions of a second-order differential equation with operator coefficients* 158
Gorčakov, Ju. M. *A collection process* 1139
Gordin, M. I. *The central limit theorem for stationary processes* 1174
Grišin, V. M. *Consistency of a fragment of Quine's NF system* 1387
Gudiev, A. H. *The Dirichlet problem for equations with coefficients belonging to spaces with a mixed norm* 176
Hölder continuity of generalized solutions of elliptic equations with coefficients in spaces with mixed norm 328
Gudkov, D. A. *Position of the circuits of a curve of sixth order* 332
Gurevič, B. M. *Topological entropy of enumerable Markov chains* 911
Gusjatnikov, P. B. and Nikol′skiĭ, M. S. *Optimality of pursuit time* 103
Haitov, T. I. *Cubature formulas with prescribed derivatives in the periodic case* 1547
Halilov, Z. I. and Panaĭoti, B. N. *Minimization of a quadratic functional induced by linear operators in normed spaces* 212
Halimskiĭ, E. D. *The generalized segment and its use in homotopy theory* 351
On topologies of generalized segments 1508
Helemskiĭ, A. Ja. *Relations between the structure of some nilpotent associative algebras and the structure of the lattice of their ideals* 903

Hvostov, A. T. *Investigation of the behavior of Temljakov integrals by the method of linear homogeneous differential operators of first order* 632

Ibragimov, I. A. *Conditions for complete regularity of a class of stationary random processes* 526

Ibragimov, I. A. and Solev, V. N. *A condition for regularity of a Gaussian stationary process* 371

Ibragimov, I. I. *On the completeness of systems of analytic functions generated by consecutive derivatives of analytic functions* 924

Ibragimov, N. H. *Invariance of Dirac's equations* 488

Groups of generalized motions 780

Il′in, V. A. *The principle of localization for almost all of the sequence of partial sums of Fourier series in a fundamental system of functions* 13

Il′in, V. A. and Šišmarev, I. A. *Fourier series with respect to fundamental systems of functions of a polyharmonic operator* 1473

Ioffe, A. D. and Judin, D. B. *Some problems of nonlinear stochastic programming* 530

Ionin, V. K. *Riemannian spaces with Euclidean isoperimetric inequality* 1225

Ivasišen, S. D. *The Green's matrix of a nonhomogeneous parabolic boundary value problem* ... 928

Ivrīĭ, V. Ja. *Exponential decrease of the wave equation solution in the exterior of an almost star-like region* 1527

Jakubovič, E. D. *Exponential stabilization of linear systems* 567

Jakubovič, V. A. *A class of nonlinear differential equations for which the problems of stability or instability in the large can be solved effectively* 720

Kačurovskiĭ, R. I. *The regular points, spectrum and eigenfunctions of nonlinear operators* 1101

On the solvability of certain classes of nonlinear equations 1338

Kanovič, M. I. *On the decision complexity of algorithms* 700

Kanovič, M. I. and Petri, N. V. *Some theorems on the complexity of normal algorithms and computations* 233

Kapilevič, M. B. *On the solution of Cauchy iteration problems in basic series* 283

Kaplan, A. A. and Rubinšteĭn, G. Š. *On the Kuhn-Tucker theorem* 1228

Karacuba, A. A. *On trigonometric sums* 1334

Karatoprakliev, G. D. *On a boundary value problem for equations of mixed type in multidimensional domains* 1277

Kasymov, K. A. *The asymptotic behavior of the solution of the initial jump problem for nonlinear systems of differential equations with a small parameter in the leading derivative* 1531

Keldyš, L. V. *Topological imbeddings of simple arcs and closed curves in* E^3 376

Kenderov, P. *Duality theory for topological vector spaces over a discrete field* 579

Kiguradze, I. T. *On the singular problem of Nicoletti* 663

Kiprijanov, I. A. and Ključancev, M. I. *Boundedness of a certain class of singular integral operators* 740

Estimates of a surface potential generated by a generalized shift operator 1232

Ključancev, M. I. *Estimates for solutions of boundary value problems with Bessel operator* ... 1281

Kofner, Ja. A. *On a new class of spaces and some problems of symmetrizability theory* 845
Kokilašvili, V. M. *A direct theorem on mean approximation of analytic functions by polynomials* 411
Kolesov, Ju. S. *Schauder's principle and the stability of periodic solutions* 1290
Kondrat′ev, V. A. and Èĭdel′man, S. D. *Some properties of positive solutions of evolutional hypoelliptic equations* 180
On the character of solutions of linear evolutionary systems with elliptic space part 1429
Kordzadze, R. A. *On the index of singular integro-functional operators* 415
Korobov, A. A. *Cohomology of algebras with unit* 17
Korotkov, V. B. *On the Carleman nature of the resolvents of certain linear operators* 419
Koršunov, A. D. *An estimate from above of the length of the shortest homogeneous trials for determining the final state of almost all automata* 21
Kozlova, Z. I. *Index comparison principle and separation laws in some classes of sets in topological spaces of weight τ* 841
On some ΔΣ-operations the bases of which are obtained by union of chains of the base of the original operation 1237
On some applications of the index comparison principle and separability laws of the space J^{ω_ν} 1286
Krasovskiĭ, Ju. P. *Properties of Green's function and generalized solutions of elliptic boundary value problems* 54
Growth estimates for derivatives of solutions of homogeneous elliptic equations near the boundary 120
Krasovskiĭ, N. N. and Subbotin, A. N. *Mixed control in a differential game* 1180
Krivenkov, Ju. P. *On a certain form of the optimality conditions* 1106
Kronrod, M. A. *Optimal ordering algorithm without operational field* 744
Kruškal′, S. L. *An approximation theorem for analytic functions, with applications* 235
A contribution to the problem of dependence of holomorphic differentials on the moduli of Riemann surfaces 1434
Kružkov, S. N. *Generalized solutions of the Cauchy problem in the large for nonlinear equations of first order* 785
Linear and nonlinear parabolic systems in the plane 891
Krylov, A. L. *Cauchy problem for Laplace's equation in the complex domain* 1184
Kublanovskaja, V. N. *On an application of Newton's method to the determination of eigenvalues of λ-matrices* 1240
Kufarev, P. P. and Kufarev, B. P. *On two metric ways of defining prime ends of a sequence of plane regions* 974
Kulov, R. D. *Imbedding theorems for weight spaces of fractional order with a mixed norm* 1572
Kurčatov, V. A. *On a method of solving nonlinear functional equations* 1395
Kurižev, Ju. A. *A binary additive problem* 702
Kuznecov, Ju. A. *On the theory of iteration processes* 59

Landis, E. M. *Necessary and sufficient conditions for regularity of a boundary point in the Dirichlet problem for the heat-conduction equation* 380
Laptev, G. I. *On an operational calculus for unbounded linear operators* 423
Ličeva, V. V. *A new algorithm for obtaining higher approximations in the averaging method* 1294
Lašnev, N. S. *On continuous decompositions of collectively normal spaces* 1069
On completely irreducible mappings of completely regular spaces 1111
Lavrik, A. F. *Double sums involving a quadratic character* 534
Le Din Thin *The investigation with respect to spectral indices of the power stability of difference approximations in time problems* 1468
Ledovskaja, I. B. *Bogoljubov-Krylov higher approximations for solutions bounded on the whole axis* 125
Lerer, L. E. *On the stability of bases in locally convex spaces* 24
Lerner, M. E. *An extremal property of solutions of a class of hyperbolic equations* 239
Maximum principles for elliptic-hyperbolic equations of mixed type of the second kind ... 457
Levič, E. M. *Representation of solvable groups by matrices over a field of characteristic zero* 1146
On a problem of P. Hall 1299
Levin, B. V. and Faĭnleĭb, A. S. *Average values of multiplicative functions* 1142
Levin, L. A. *Some syntactic theorems on the calculus of finite problems of Ju. T. Medvedev* .. 288
Lifanov, I. K. *On the large inductive dimension* 247
Li Hoang Tu *Approximately optimal properties of Wald tests and the problem of testing statistical hypotheses* 1398
Liskovec, V. A. *On a recurrence method of counting graphs with labelled vertices* 242
Litvinčuk, G. S. and Nečaev, A. P. *A contribution to the theory of Carleman's generalized boundary value problem* 1341
Ljance, V. È. *On the perturbation of a continuous spectrum* 896
Ljapin, E. S. *The independence of the subsemigroups of a semigroup* 492
Lohin, V. V. *Symmetry and nonlinear tensor functions in Minkowski space* 623
Lozanovskiĭ, G. Ja. *On the representation of spaces of regular functionals and some applications* 1149
Maergoĭz, M. D. *Choice of a parameter in a minimization problem* 1188
Maksimov, V. M. *On a generalization of the basic Cauchy theorem* 1027
Mal'cev, A. A. *A topological version of Słupecki's theorem for certain compacta* 1071
Malyšev, V. A. *On the solution of discrete Wiener-Hopf equations in a quarter-plane* 1032
Margulis, G. A. *On the arithmeticity of discrete groups* 900
Marmeršteĭn, I. I. *On the boundedness of solutions of some systems of linear partial difference equations* 1437
Maslennikova, V. N. *An explicit representation and asymptotic behavior for $t \to \infty$ of the solution of the Cauchy problem for a linearized system of a rotating compressible fluid* 978
Medvedev, Ju. T. *A method for proving the unsolvability of algorithmic problems* 495

Medvedev, N. V. *Conditions for the existence of bounded solutions of differential equations in a Banach space* 29

Periodic solutions of differential equations in a Banach space 129

Mihaĭlov, L. G.; Gil′man, B. M. and Zamota, A. V. *Multidimensional integral equations with difference kernels in a half-strip* 1476

Mikljukov, V. M. *On ϵ-quasi-conformal mappings of a ball onto a ball* 932

Removable singularities of quasi-conformal mappings in space 1153

Mil′man, D. P. *Sublinear continuations of functionals* 582

Mil′man, V. D. *A transformation of convex functions and the duality of β and δ characteristics of a B-space* 789

Mil′man, V. D. and Tumarkin, Ju. B. *Properties of sequences in locally convex spaces* 63

Molčan, G. M. and Golosov, Ju. I. *Gaussian stationary processes with asymptotic power spectrum* 134

Morozov, V. A. *A stable method for computation of the values of unbounded operators* 339

Muhin, Ju. N. *Endomorphisms of the lattice of closed subgroups of a topological group* 1346

Nahušev, A. M. *A new boundary value problem for a degenerate hyperbolic equation* 935

Nalimov, V. I. *A priori estimates of solutions of elliptic equations in the class of analytic functions and their applications to the Cauchy-Poisson problem* 1350

Nikišin, E. M. *Resonance theorems for series and sequences of functions* 667

Nikol′skiĭ, N. K. and Pavlov, B. S. *Eigenvector bases, characteristic functions and interpolation problems in Hardy's H^2-space* 138

Bases of eigenvectors of completely nonunitary contractions 163

Nosko, V. P. *Local structure of Gaussian random fields in the vicinity of high-level light sources* 1481

Osipov, S. I. *A representation of the Laplace transformation of the function* $\exp(-t^2)\operatorname{erf}(at)$ 1193

Ošman, E. V. *Continuity of metric projection and some geometric properties of the unit sphere in a Banach space* 291

Ostrouhov, D. A. *Estimation of the complexity of normal algorithms* 251

Ovčinnikov, I. S. *Metric properties of mappings that leave certain integral functionals bounded* 793

Ovsjannikov. L. V. *Partial invariance* 538

Panič, O. I. *Equivalent regularization of boundary value problems by means of potentials* 142

Parovičenko, I. I. *Topological equivalents of the Tihonov theorem* 33

Pasynkov, B. A. *On topological groups* 1115

On inductive dimensions 1402

Pčelin, B. K. *On the general theory of polyharmonic functions* 983

Perel′muter, G. I. *On a conjecture of Williams* 67

Perov, A. I. *New conditions for complete solvability, and reducibility problems* 542

Perov, A. I. and Kacaran, T. K. *On nonlinear multidimensional differential equations* 1441

Pesin, I. N. *Mappings that are quasi-conformal in the mean* 939

Petrenko, V. P. *Growth of meromorphic functions of finite lower order* 184
The deviations of meromorphic functions with lower order less than one 797
On the structure of the set of positive deviations of meromorphic functions 1485
Petri, N. V. *Algorithms connected with predicates and Boolean functions* 294
The complexity of algorithms and their operating time 547
Petrov. V. V. *On the order of the growth of sums of independent random variables* 499
Plotkin, A. I. *Isometric operators in spaces of summable analytic and harmonic functions* 461
Pogorelov, A. V. *An a priori estimate for the principal radii of curvature of a closed convex hypersurface in terms of their mean values* 626
Pohožaev, S. I. *Normal solvability of nonlinear equations* 35
Pokrovskiĭ, L. D. *The Dirichlet problem for pseudodifferential equations depending on a parameter* 1156
